HONORS

- Lambda Pi Eta, National Communication Association Honor Society
- Dean's List, Hobart College

SKILLS

Languages: Java (expert), HTML5 (continuing education), CSS3 (continuing education), JavaScript (continuing education), MySQL (continuing education)

PROJECTS

Pac-Man (Java)

- Developed a recreation of the classic arcade game, Pac-Man, written in Java. Utilized threads to automate the movement of the Ghosts and process the movement of Pac-Man. Used a variety of "listener" classes to retrieve keyboard input used for controlling Pac-Man.

Countdown Clock (Java)

- Developed a java-based countdown clock application for CNBC for use on their video wall during live broadcasts. Utilized the Java time package (java.time) to compute differences for countdowns and timers.

Pente (Java)

- Developed a fully functional java-based version of the classic strategy game, Pente.
